

PBH KEITH HEIGHTS

902 N.W. 8th Street, Grand Prairie, Texas 75050

Within the 1950s-established Keith Heights neighborhood, the PBH team found a mid-century modern home sitting atop a hill on a half-acre lot that was in disrepair and desperate need of some TLC. With careful precision and thought, the team completely renovated and revived this home, breathing 21st Century life into it, while savoring some of its original 1950s spirit and details. Customized specifically for seniors, the home combines current architectural and design trends with mid-century furnishings, styles, colors and décor that evoke treasured memories for our greatest generation and baby boomers.
